About Company

For over a decade, Jitani Holdings has been one of the leading Plywood brand in India.. We pride ourselves on extensive product range, superior quality and commitment to our customers. The exclusive nature and supreme quality of our products has attracted the attention of all major distributors across South & Western India

Jitani plywoods are manufactured using high grade timber, ensuring high density and long durability. The plywoods are engineered using in house manufactured resins promising maximum protection against termites, borers and timber affecting agents

Dealer collaborations
across India

30+

Amazing brands
collaborations

8+

Cities with established
dealer network.

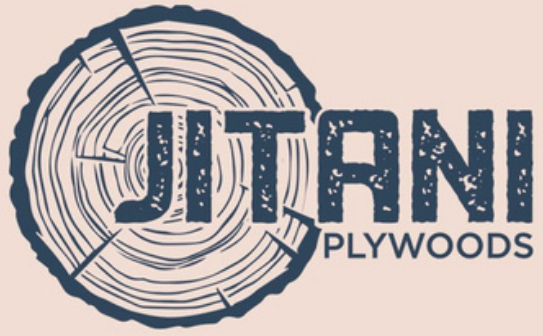

Our Value

Vision

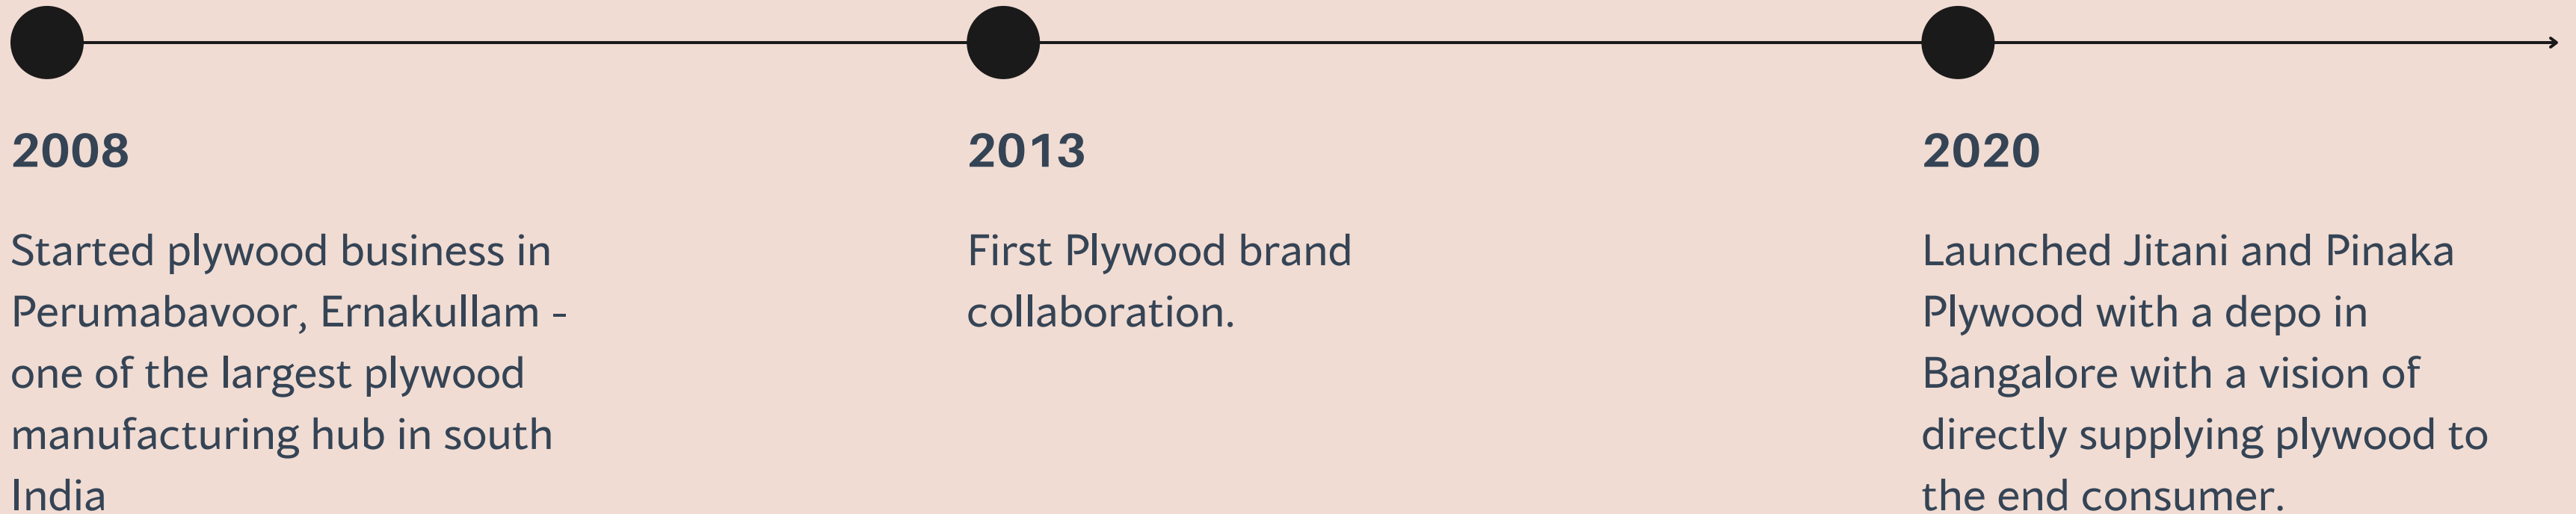

Bringing transparency in the plywood market thereby helping customers make an informed decision for all their plywood requirements

Mission

upplying high-quality products directly from manufacturing facilities to customers of today and tomorrow, for all their plywood needs.

Key Milestones

2008

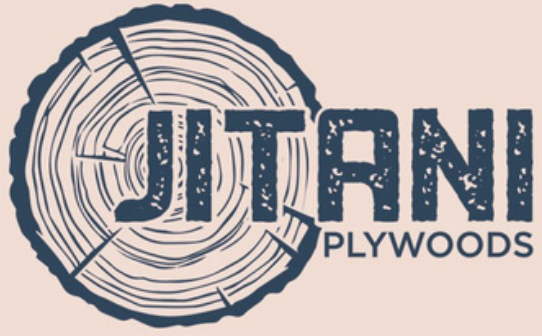

Started plywood business in Perumabavoor, Ernakulam - one of the largest plywood manufacturing hub in south India

2013

First Plywood brand collaboration.

2020

Launched Jitani and Pinaka Plywood with a depo in Bangalore with a vision of directly supplying plywood to the end consumer.

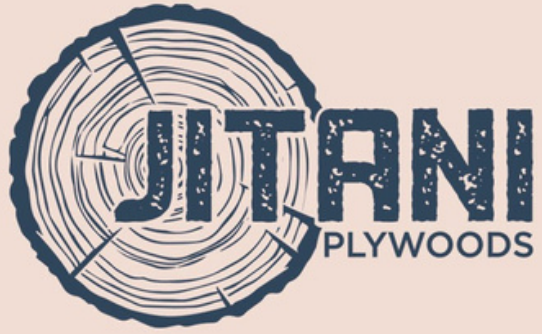

Our Products

**COMMERCIAL
PLYWOOD**

**SHUTTERING
PLYWOOD**

**WATERPROOF
PLYWOOD**

BLOCKBOARDS

What makes us different?

- **DENSIFIED PLYWOOD**

Plywood glued under high pressure hydraulic press to achieve optimum density. 16mm densified to make 12mm plywood.

- **INHOUSE RESIN**

Resin made in inhouse kettle to have optimum control over plywood bonding.

- **SUPERIOR FACE VENEER**

Imported Gurjan (Burma) and Okume (Gabon) face veneer for smooth surface and better finishing
